

WHERE IS YOUR ORGANISATION ON YOUR RESPONSIBLE AI JOURNEY?

Do you have an internal AI governance framework?

Yes

No

Do you want to...

Use the **Model AI Governance Framework** to help your organisation to implement AI governance; and the **Compendium of Use Cases** to learn how other companies have implemented responsible AI

Validate your organisation's AI governance framework

Test your organisation's traditional AI models

Evaluate your organisation's Large Language Model (LLM) applications

Test or evaluate your vendor's AI models or LLM applications

Use **Implementation and Assessment Guide for Organisations** to assess alignment of your organisation's practices with the Model Framework & **AI Verify Process Checklist** to assess your AI model practices

Use **AI Verify Software toolkit** to conduct technical tests on your AI model for Fairness, Explainability and Robustness

Use **Project Moonshot** to evaluate your LLMs through benchmarking and red-teaming

Use **AI Verify** or **Project Moonshot** to generate a report for your organisation to review
